

# Mountz PSE

*Mountz, the ONE & ONLY source for the Worlds Best Torque Screwdrivers is offering a HUGE discount of 33% for a limited time on the PSE Preset Torque Screwdrivers from now until June 30, 2014.*

## 4 MODELS

- Various models that range from 0.7 ozf.in - 120 lbf.in
- Precision radial ball clutch "slips-free" when the preset torque is reached preventing over-torquing.

- Ergonomic rubber hand grip.
- Thrust bearings insure that the torque setting is independent of any end load applied by the operator.
- ESD Compliant

PSE is a preset torque screwdriver (internally adjustable) with an ergonomic grip. The cam-over design prevents overtorquing for your application. When the torque screwdriver reaches its pre-set torque value the internal mechanism disengages from the drive thus limiting the torque applied.

**33% OFF**

- Tamper-proof internal adjustment. No external adjustment scale - must be preset using a torque analyzer.
- All models provide bi-directional operation and are calibrated in either the CW or CCW direction.

### Model Specifications

| Model    | Item # | American            | S.I.           | Metric            | Drive      | Color | Weight  | 2013 List Price | Sale Price      |
